

PICTURES

Variant for experienced players

With this variant the challenge to rebuild the photos is more demanding:

Icon cards: Shuffle the 19 icon cards, then draw 7 random cards and categorize them to “doesn't fit”   “fits”; depending on whether the icon cards describe your photo or not.

Example:

Building blocks: Only 2 may touch the table. You may use other building blocks, but they have to be build on top.

Sticks and stones: Use only up to 4 pieces. You may choose whichever you want (for example 1 stick and 3 stones).

Shoe laces: Use only one shoe lace.

Color cubes: Only 2 cubes of each color are available. Nevertheless you must place 9 cubes into your picture frame.
