

SNAP.

The most popular round game.

Any number of persons may take part. The cards are to be equally distributed and each player places his pile before him face downwards.

Each player in turn, takes the top card of his pile and places it before him face upwards.

Whenever two cards with the same picture are turned up, the player who first cries "Snap" can claim both cards and also any cards which may be covered by them. He must add these to his own upturned pile.

If two players call "Snap" and it is not certain who was the first to cry, the disputed cards must be placed in the pool (face upwards) and played for as before.

The player who snaps all the cards is the winner.
