

# PICTURES X-MAS

An expansion for Pictures by Daniela and Christian Stöhr for 3-6 players

## Rules

### Contents:

#### Set 1:

Gift bag with 1 Christmas ball, 3 wooden pieces (*star, house, rectangle*), 2 pawns, 1 chain, 1 cotton ball, 1 cinnamon, 1 stone and 1 screen.

#### Set 2:

Christmas table setting with 24 Christmas cardboard decorations

#### 55 photo cards

#### 1 scorepad

#### 1 rules

### Except for the following additions, the original rules for Pictures apply:

- The two new sets are added to the original sets. Before each game, the players **choose which 5 sets** they will use during the game.
- Use the two new sets as follows:

#### **Gift bag**

Place as many items as you see fit into the gift bag. Hide the remaining items behind your screen. Then give the bag to the other players, so that each player gets a chance to feel the items in the bag and possibly recognize your hidden image. Do not look into the bag.

#### **Christmas table setting**

*Assemble the two table-setting puzzle tiles together.*

Place as many of the 24 decoration tiles as you see fit entirely on the plate depicted on your table setting. Each tile that you placed must be entirely on the plate and may not go over its boundary.

If you would like to increase the difficulty, you can play with a selection of the decoration items only.

### **Play with 6 players**

Use 6 sets of components and play over 6 rounds. After 3 rounds remove all sixteen photo cards from the grid and replace them with new photo cards. Return all coordinate tokens to the cloth bag.

As an alternative you can replace the photo cards that have been pictured with new cards from the stack and return all coordinates tokens to the bag in each round.

### **Many thanks to our photographers!**
